The following is the letter sent by Col. Fremont to Mr. King of the San Francisco Bulletin, in reply to a circular letter addresed by the latter to all Presidential candidates:

NEW YORK Sept 4 1856. Sin:-I have the pleasure of acknowledging the receipt of your letter of the 4th of last month. Believing that its subject comprehends the whole future of California-magnifis cent, if our hopes can be realized—I consider that an immediate and clear reply is due to the people of the State, who in two months will be called to decide it. It is, perhaps, due also to myself to use the occasion presented for making such a statement of my convictions in regard to it, as I have not thought it altogether consistent with propriety to offer on other oc-

the Pacific is as clearly apparent to my mind as was the necessity of extending to it the constitution when the country was acquired. It is hardly necessary to remaind you that I have becupied many years in siding to procure for it s favorable opinion, and might reasonably beinfinnism of the Buchanan party. Mr. Heading forred that I would be prompt to seize apon the first good opportunity which should offer for giving practical effect to the labor and time I have bestowed upon it. From the day when my connection with the army was dissolved, I have considered my life consecrated to the cans bune, to show how they do the work of preservs struction of this Pacific Rullroad. In view of future events that can be easily appreciated by every man, this National highway becomes of the country together. As to the question of constitutional power in the Government to aid in order to secure its construction, there is in my mind as little doubt as of the power of Govs ernment to provide postal accommodations in time of peace, or means for the transport of munitions and bodies of men in time of war.-Entertaining no doubt as to the power and the expediency fits exercise, any change of the constitution in this connexion is unnecessaessary until this great National work can be consumated. Every facility of communication by postal and other arrangements should be immediately established as a means of annihi lating the distance which divides the Pacific and Atlantic coast, and consolidating by indissoluble bonds the now apparently det cled and separate parts of the American Union.

The opportunity to answer your enquiried has given mea particluar satisfaction. My fortunes are inseparably connected by choice, as by the current events, with the Pacific Coast. cherish a grateful recollection of the favor have already received from this new people whose marvellous energy and power in the brief space of eight years, have establiched as empire in the place of the solitude and feeble civilization which have so long obscured that country; and whether in private or public life no opportunity will be allowed to escape me in which by personal devotion, or by personal sacrifice, I can advance its great interests. With respect, I am your obedient servant.

Fifteen of the 27 Fillmore electors had repudinted their own nominations, refusing to play into hands of Buchanan, and there was a general stampede of all but the pro-Slavery and Buchanan Ameris cans to the Union ticket.
